

HOW TO SET UP PARENT ACCOUNT

- 1) Access your district's public portal as normal.
<https://warren749.powerschool.com/public/home.html>
- 2) Click on Create an account
- 3) Have the user enter their desired username and password
- 4) Scroll down the page and populate the "Link to Students Accounts" portion.

This is where the user will need the Access ID and Access Password from the students Access Keys portion of their Access Accounts page (available in the Admin Portal of PowerSchool. Please contact your child's school for this information if you do not have.)

The parents are able to have multiple students associated to their one account.

- 6) Once all Access ID's and Passwords have been entered, have the user then hit enter at the bottom of the page.

The parents will now be able to log into their accounts just as before.
